

YUSIF MUSTAFAZADA

FRONTEND DEVELOPER

PERSONAL PROFILE

06.08.2001

I've been interested in Frontend Developing for 2 years. At the time I use ReactJs as a library. In addition I'm able to work with NodeJs and MySQL at basic level. I improve my NodeJs skills day by day. You can review my projects through my GitHub account

EDUCATION

Bachelor Of Science:

Baku Engineering University (2018-2022)

WORK EXPERIENCE

Frontend Developer

IC GROUP MMC | JANUARY 2023 - present

I complete tasks on time, write internal projects for the company, develop new modules using React JS, make changes to existing website, and also work with Api and Git.

Intern Frontend Developer

AVRORA GROUP MMC | JULY 2022 - JANUARY 2023

I'm front-end developer with hands-on experience. I have experience with ReactJs, Git and also I'm able to write APIs and backend with NodeJS. I can easily write Databases with MySQL. I've worked on some projects which I published on my GitHub account. In general I'm enthusiastic to learn new skills therefore it will be easy to adopt and learn new technology. I'm confident and love my profession.
