PROFILE

DATE OF BIRTH: 06/08/2001

I've been interested in Frontend Developing for 2 years. At the time I use ReactJs as a library. In addition I'm able to work with NodeJs and MySQL at basic level. I improve my NodeJs skills day by day. You can review my projects through my GitHub account.

EXPERIENCE

INTERN FRONTEND DEVELOPER

AVRORA GROUP MMC (2022-2023)

I'm front-end developer with hands-on experience. I have experience with ReactJs, Git and also I'm able to write APIs and back-end with NodeJS. I can easily write Databases with MySQL. I've worked on some projects which I published on my GitHub account. In general I'm enthusiastic to learn new skills therefore it will be easy to adopt and learn new technology. I'm confident and love my profession.

JUNIOR FRONTEND DEVELOPER

IC GROUP (2023-Present)

I wrote modules using ReactJS and did some changes in its design. And also, learned working with some technologies.
